Luxurious Belgian Wallcoverings

BE INSPIRED BY AQUILA

ILA601

The collection Aquila combines Southern charm with elegant fashion. From citrus and cypress trees to warm, geometric fabric designs, from vibrant colour combinations to warm tone-on-tone wallpaper patterns. Taking inspiration from Southern towns and villages, we have embellished the designs with touches of textile. This look is the common thread throughout the entire collection, giving you the sensation of being surrounded by fabrics rather than wallpaper. This is precisely what gives the collection its rather unique touch.

BE INSPIRED BY COLOURFUL VILLAGES, ABSTRACT GEOMETRIES AND CHARMING FABRICS.

The value for the darker colours can be higher, that of the lighter shades is somewhat lower. La valeur pour les couleurs sombres peut être supérieure, celle des teintes plus claires un peu plus faible. Die Werte für die dunkleren Farben können höher sein, die für hellere Farben niedriger. El valor de los colores más oscuros puede ser más alto, el de los colores más claros es algo más bajo. Die werte von de donkere kleuren kan hoger liggen, die van de lichte kleuren wat lager.

opacity / opacité / opazität / opacidad / opaciteit

Non-woven wallcovering is a natural product, which makes it possible for colour differences to occur. This and light-coloured coated wallcoverings are more sensitive to these differences and require a thorough preparation of the foundation. Preferably, it should be a light uniform colour, or a plain coloured wallcovering can be placed on a base. Plain, glossy wallcovering also requires extra care when treating the foundation, as unevenness can also be visible here. Le revêtement mural tissé est un produit naturel, entraînant d'éventuelles différences de couleur. Le papier peint tissé fin et clair est plus sensible et demande une préparation approfondie de la base. Celui-ci aura de préférence une couleur claire uniforme ou un papier peint tissé lisse et uni plus foncé comme base. Le papier peint lisse et brillant demande aussi une attention supplémentaire lors du traitement de la base, des irrégularités peuvent se aussi être visibles. / Viewensbekleding is een natuurproduct, bij dem sich Farbunterschiede ergeben können. Dünne und helle Vliestapeten reagieren daher empfindlicher und brauchen eine gründliche Untergrundvorbereitung. Diese Vliestapeten erfordern man ein hellere mit einer gleichmäßigen hellen Farbe oder mit einer Vliestapete als Grundlage. Auch bei erstrahligen Tapeten mit Glanz ist bei der Behandlung des Untergrunds Vorsicht vorzugehen, weil Unebenheiten gut sichtbar sein können. / El revestimiento de pared recubierto es un producto natural, por lo que es posible que haya diferencias de color. Una preparación cuidadosa de la base es muy importante si se trata de colocar un papel recubierto fino o de color claro. Preferentemente tendrá un color uniforme claro, o bien podrá utilizarse como base un papel recubierto fino liso. Los papeles pintados lisos o brillantes también requieren una atención especial en el tratamiento de la base, ya que en estos casos también puede resultar visible cualquier irregularidad. / Viewensbekleding is een natuurproduct, wat maakt dat kleurverschillen mogelijk zijn. Dun en lichtgekleurd vliestehang is hier gevoeliger voor en vraagt een grondige voorbereiding van de ondergrond. Daar krijgt bij voorkeur een uniform lichte kleur, of er kan effen vliestehang als basis gebruikt worden. Ook glanzend, effen behang vraagt extra aandacht bij de behandeling van de ondergrond, onregelmaten kunnen ook hier zichtbaar zijn.

With respect for NATURE & ENVIRONMENT

thorough research

local company

eco-friendly manufacturing processes

good quality = more sustainable

Environmental Statement - Green innovation and being committed to the environment is an important value for Masureel. We strive for minimal impact in our production facilities as well as for the materials we produce. In our search for sustainable solutions, we became market leader in non-woven, (textile) wallcoverings. All our print pastes are water-based and do not harm the environment or people's health. We avoid PVC and formaldehyde and offer alternatives to vinyl wallcovering. We purify the wastewater from our manufacturing processes and partly re-use it. Our remaining wastewater is of higher quality than local environmental standards demand. We manufacture all our products locally, in our own factory in Belgium. This significantly reduces our carbon emissions. Masureel is always on the lookout for innovative processes and technologies that reduce our environmental impact.

Milieuverklaring - Groene innovatie en toewijding aan het milieu is een belangrijke waarde voor Masureel. We streven ernaar een minimale impact te genereren in zowel onze productiefaciliteiten als de materialen die we produceren. In onze zoektocht naar duurzame oplossingen, werden we marktleider in non-woven (textiel-)behang. Al onze drukpasta's zijn op waterbasis, wij gebruiken geen oplosmiddelen die schadelijk zijn voor het milieu of de gezondheid. We vermijden PVC en formaldehyde en bieden alternatieven aan voor vinylbehang. We zuiveren het afvalwater van onze productie en hergebruiken het zoveel mogelijk. De rest is van hogere kwaliteit dan de lokale milieustandaarden vereisen. Wij maken al onze producten lokaal, in onze eigen fabriek in België. Dit vermindert onze CO2-uitstoot aanzienlijk. Masureel blijft steeds op zoek naar innovatieve processen en technologieën die onze milieu-impact verminderen.

Déclaration Environnementale - L'innovation verte et l'engagement pour l'environnement sont des valeurs importantes pour Masureel. Nous cherchons à minimiser l'impact environnemental de nos installations de production et des matériaux que nous produisons. Dans notre quête de solutions durables, nous sommes devenus leader du marché des revêtements muraux (textiles) tissés. Toutes nos pâtes d'impression sont à base d'eau et ne nuisent ni à l'environnement ni à la santé publique. Nous évitons le PVC et le formaldéhyde et proposons des alternatives au papier peint en vinyle. Nous épurons les eaux usées issues de nos processus de fabrication et les réaffectons en partie. Les eaux usées restantes sont d'une qualité supérieure à celle exigée par les normes environnementales locales. Nous fabriquons tous nos produits localement, dans notre propre usine en Belgique, permettant de réduire sensiblement nos émissions de carbone. Masureel est toujours à l'affût de processus et de technologies innovants permettant de réduire notre empreinte écologique.

Umwelterklärung - Grüne Innovation und Engagement für die Umwelt ist ein wichtiger Wert für Masureel. Wir streben nach minimalen Umweltauswirkungen unserer Produktionsanlagen und der von uns hergestellten Materialien. Auf der Suche nach nachhaltigen Lösungen wurden wir im Bereich, (textile) Wandbeläge aus Vliesstoff zum Marktführer. Alle verwendeten Druckpasten sind auf Wasserbasis und sind weder umwelt- noch gesundheitsschädlich. Wir vermeiden PVC und Formaldehyd und bieten Alternativen zu Vinyltapeten. Abwässer aus unseren Produktionsprozessen werden gereinigt und teilweise wiederverwendet. Das verbleibende Abwasser ist von höherer Qualität, als es die lokalen Umweltstandards verlangen. Sämtliche Produkte werden vor Ort in unserer eigenen Produktionsstätte in Belgien hergestellt. Dadurch werden unsere CO2-Emissionen erheblich reduziert. Masureel ist immer auf der Suche nach innovativen Verfahren und Technologien, die unsere Umweltbelastung verringern.
